Thank you for purchasing my theme. If you have any questions that are beyond the scope of this help file, please feel free to email via my user page contact form [here](#). Thanks so much!

EDITING FILES

If you don't know anything about HTML and web pages, before doing anything with this template I recommend you to take at least some basic tutorial or hire somebody experienced to do this.

Editing PHP and JavaScript files is really advanced stuff, only experienced person should edit them. If you're not sure, do not change anything, it might cause serious damage to the scripts. Hiring somebody, who knows what to do, is better solution.
